To: Public Service Commission

I am writing this in regards to the statement that came out in the new paper on 11-20-14. I am request for you to reject their perposal. The Eastern Rockcastle Water Association has ask for a increase in the water rates. Also they want to charge a meter reading of 30 dollars they charge 5 dollars now this is a 700% increase whitch I feel is way to much for some people on a fix income. And even for the low and middle class working people which live in this area. Please take a look at this and turn it down. I have sent you a copy of the new paper statement.

I ask that you please take a stand for the hard working people and for the elderly and for the ones on fix income. Social Securty only got a 1.5% increase this year and the Eastern Rockcastle Water Association is asking for way to much of a increase in the water.

I did not see any were in the statement that was issued in the paper what they were going to do with the extra money they would be getting form the people. Something just does not look right here.

Thank you for your time and efforts in this matter.
